Google Form (Digital Literacy Quiz)

Task 3: Google Workspace Collaboration - Digital Literacy Quiz

For this task, I created a Google Form titled "Digital Literacy Awareness Quiz" to assess students' knowledge about digital literacy and safe internet practices. The form contains five questions, including multiple-choice and short-answer types. The questions focus on topics such as digital literacy definition, safe password practices, cyber safety, and responsible online behavior.

After creating the form, I enabled response collection and linked it to Google Sheets to automatically record responses. This helps in organizing data and analyzing students' awareness levels. Screenshots of the Google Form and response sheet have been included in this folder as proof of completion.

This activity helped me understand how Google Forms can be used for surveys, quizzes, and collaborative academic work. It also demonstrated how responses can be collected and managed efficiently using Google Workspace tools.

Tool Used: Google Forms

Purpose: Digital Literacy Awareness Quiz

Output: Google Form Screenshot and Response Sheet Screenshot
